

Aurora ADE-16 Disk Encloser

Disk Enclosure

- ▶ High density The innovative enclosure with 477mm depth and 3U height that holds up to 16 disks, is space-saving and applicable to the standard rack-mounted scenarios.
- ▶ Power protection Disk powered on sequentially during system startup, protection from impulse current

SPECIFICATIONS

STORAGE

HDD

- 16 SATA Interfaces

Audio Input

- up to 16TB for each disk

EXTERNAL INTERFACE

Back-end Expansion Interface

- 1 miniSAS

Serial Interface

- 1 RS232

GENERAL

Power Supply

- 100 ~ 240V

Consumption (with HDD)

- ≤ 160W

Working Environment

- -10 °C~ 55 °C 5%~95% RH (non-condensing)

Weight(Without HDD)

- < 10kg(22lb)

Dimensions (W×D×H)

- 482 × 477× 131mm (19.0" × 18.8" × 5.1")
